Date 30/09/2015

A seminar was organized by the Institution of Engineers (India) Goa State Centre, in association with Powerica Ltd., at Hotel Taj VIVANTA, Panaji, on 30/09/2015.

TOPIC : LATEST TECHNIQUES IN DESIGN OF DIESEL GENERATORS

Mr. Gerard D'Mello, Chairman of the Institution, welcomed the gathering and emphasized need of proper selection of equipment in industry.

Mr. Deepak Gavaskar, Mr. Vinay Barar, Mr. Manish Gadre and their other colleagues from M/s Powerica Ltd. gave presentations on the new norms and designs of Generators. More stringent conditions for emissions are the need of the hour, and the suitable design features were discussed in a very interactive manner. Existing users and prospective users were able to clarify their difficulties.

The faculty also emphasized the need for carrying out periodic maintenance as per recommendations of the manufacturers, and enumerated incidents of failure due to the lack of proper maintenance.

The Seminar was attended by over 100 delegates consisting of Engineers from private sector as well as the Government, from all over Goa.

Er. Dilip Sahakari, Convener of the program, briefed the gathering about the activities of The Institution of Engineers (India) and proposed the vote of thanks.

The Seminar was also compered by Er. Dilip Sahakari.

Photos of the seminars are enclosed.
