

Talk on “Bridge Engineering”

Mr. Utpal Chakravati delivering on Bridge Engineering to the Audience

JSW Steel Ltd, in association with The Institution of Engineers (India) Goa State Centre, is organizing an interactive talk on **“Bridge Engineering”** on Saturday, 10th January 2015 at Hotel Fidalgo, Panaji from 6.00 pm to 9.00 pm.

Er. Gerard D`Mello welcomed the gathering & introduced the Speaker the Mr. Utpal Chakravarti.

The talk was based on two bridges designed by M/s S. N. Bhobe and Associates Pvt. Ltd. One bridge that was presented had been executed by GSIDC in Goa called the Gaundalim bridge. A unique system of transportation of the bridge steel girders was shown in detailed to the gathered civil engineers. The speaker named this bridge as a bridge on wheels due to the fact that its main girder was first placed on a unique set of wheels that could turn in any direction.

Another bridge designed by the same designers called the Mantralaya bridge in Maharashtra was also presented in this talk. The difficulties faced during execution were also showcased wherein the contractors had to withstand river floods in this project while construction was in full swing.

Er. Yogesh Bhobe was convenor of this technical Seminar.

Er. Yogesh Bhobe, Hon. Secretary proposed the vote of thanks.

In all 110 Nos. Engineers attended this Program.
